

CONTENTS

PREFACE	5
BAUTISTA Lucía, CASTRO Inma T., LANDESA Luis Degradation model for system incorporating heterogeneities	7
BOGALECKA Magdalena, DERESZEWSKA Alina Modelling process of municipal wastewater quality – backgrounds and preliminary application	17
BOGALECKA Magdalena, MORAWSKA Magda Multi-state approach to food packaging material quality and consumption safety analysis	35
DĄBROWSKA Ewa Modelling oil spill layer thickness and hydro-meteorological conditions impacts on its domain movement at sea area.....	51
DĄBROWSKI Maciej Collecting and processing data of network devices impacting system load in terms of monitoring and warning system implementation	65
KOŁOWROCKI Krzysztof European Union global critical infrastructure safety management system. Research project proposition	79
KOŁOWROCKI Krzysztof, MAGRYTA-MUT Beata Maritime transportation system safety and operation cost joint optimization.....	93
KOSMOWSKI Kazimierz T. Towards strategic resilience of process plants and critical infrastructure regarding functional safety and cybersecurity requirements	117
KRASOWSKA Katarzyna, DERESZEWSKA Alina, POPEK Marzenna Preliminary approach to ecological risk assessment of microplastics in selected coastal regions of Baltic Sea.....	133
MAGRYTA-MUT Beata Port oil terminal operation cost and system safety joint optimization.....	143
MALINOWSKI Jacek Estimation of Weibull distribution parameters based on sequences of minimal repairs	163
PIETRUCHA-URBANIK Katarzyna, TCHÓRZEWSKA-CIEŚLAK Barbara, EID Mohamed Water distribution and risk governance: data issues in view of development of risk-informed decision-making approach.....	173
TANGUY Christian Transient behaviour of instantaneous and average availabilities in non-Markovian configuration.....	185
WALKOWIAK Tomasz, MAZURKIEWICZ Jacek, SUGIER Jarosław, ŚLIWIŃSKI Przemysław Performance analysis of intelligent agents in complex event processing systems.....	195
WOCH Marta, TOMASZEWSKA Justyna, KOŚCIAK Kinga, ZIEJA Mariusz Operation process of training aircraft Diamond DA 20-C1.....	205
ZHANG Hanxiao, LI Yan-Fu Approximate method for redundancy allocation problem in multi-state series-parallel system ...	215

SHORT COMMUNICATIONS

FILUS Jerzy K., FILUS Lidia Z. General stochastic models for series multicomponent system reliability (short communication)	225
OPYRCHAŁ Leszek, BĄK Aleksandra Sequence of events and probability of sinking of German battleship <i>Bismarck</i> (short communication)	227

PEOPLE OF POLISH SAFETY AND RELIABILITY ASSOCIATION AND SUMMER SAFETY AND RELIABILITY SEMINARS

DR. Mohamed EID.....	231
Prof. Franciszek GRABSKI	235
Prof. Wojciech ZAMOJSKI.....	239
Prof. Józef ŻUREK.....	243
