Introduction	9
1. Wired Instrumentation in Maritime Engineering	19
1.1. Twisted Pair Cables.....	19
1.1.1. Effect of Temperature and Humidity on Twisted Pair Cables Dielectric Properties.....	21
1.1.2. Cross-Linked Polyethylene (XLPE) as an insulating material.....	21
1.1.3. Salt Water and Twisted Pair Cable	22
1.2. 4-20 mA Analogue Standard in Maritime Engineering Applications	27
1.3. Smart Sensors in Maritime Engineering Applications	29
1.3.1. HART Protocol.....	29
1.3.1.1. Rosemount 3051S HART Pressure Transmitter.....	30
1.3.1.2. Simulated Effect of Marine Environmental Conditions on HART Sensors	31
1.3.2. Foundation Fieldbus (FF).....	34
1.3.2.1. Simulated FF H1 Bus Signal Modulation/Demodulation (Ideal Case).....	36
1.3.2.2. Simulated FF H1 Bus Signal Modulation/Demodulation (Noisy Case – MATLAB)	38
1.3.2.3. Simulated FF H1 Bus Signal Modulation/Demodulation (Noisy Case – Simulink)	41
1.3.2.4. Rosemount 3051 FF Pressure Transmitter.....	43
1.3.2.5. Simulation for the Application of FF in a Tank Level Measurement System on a Bulk Carrier Commercial Ship	43
2. Wireless HART Protocol in Maritime Engineering	57
2.1. RFI and EMI in Maritime Engineering.....	58
2.2. Received Signal Strength Indicator (RSSI)	59
2.3. Decreased Power Supply Levels (Gateway and Field Devices).....	61
2.4. Wireless HART Protocol on Various Types of Commercial Ships.....	62
2.5. Wireless HART Mathematical Model for Network Reinforcement.....	63
2.5.1. Description and derivation of the mathematical model	64
2.5.2. The Network Reinforcement Rectangle (NRR) Method	69
2.5.3. NRR Example	69
2.5.4. The Minimum Required Field Device Density (MRFDD) Method.....	71
2.5.5. MRFDD Example	72

2.6.	Wireless HART Application on Commercial Ships.....	105
2.6.1.	Tank Level Measurement System on Bulk Carriers.....	105
2.6.2.	Monitoring of Most Important Systems in the Engine Room (ER)	107
3.	General-Use Wireless Technologies (Wi-Fi)	113
3.1.	Laboratory Stand	113
3.2.	ESP-WebSerial Limited Range	120
3.2.1.	Problem Characterization.....	121
3.3.	ESP-NOW protocol	125
3.4.	Proposed Configurations for Improved Range Capabilities.....	126
3.5.	Application of ESP32-Based Wi-Fi on Commercial Ships	129
3.5.1.	Large-Scale Application on a Commercial Container Ship (Planning Example).....	131
3.5.2.	Small-Scale Application on a Ship (Fire Alarm Planning Example).....	134
3.5.3.	Cargo Cranes Wireless Safety and Performance System (Small-Scale Total Realization)	136
3.5.3.1.	Cost Analysis	141
3.5.3.2.	Functionally Safe Configuration.....	144
3.5.3.3.	Predictive Maintenance PdM Application (Hydraulic Oil Dynamic Viscosity).....	146
4.	Discussion.....	153
	Conclusions.....	164
	Bibliography.....	168

Dedication

I would like to express about my deepest thanks to the supervisor of this doctoral study, the respected and honored Professor Janusz Mindykowski, for his invaluable guidance and unwavering support. Equally, I am extremely thankful to the assistant supervisor, the respected Professor Bolesław Dudojc, for his advice and assistance.

My sincere appreciation also extends to the Dean of the Faculty of Electrical Engineering at Gdynia Maritime University, the respected Professor Piotr Jankowski, for his support and leadership.

On the other hand, I am much obliged to the reviewers of this doctoral dissertation, the respected Professors Stanisław Osowski, Andrzej Bien, and Alexandru Salceano – for their time, expertise, and thoughtful evaluation.

Moreover, I am profoundly grateful to the respected, kind Professor Aneta Ociecek, the director of the doctoral school at Gdynia Maritime University, for the exceptional, unprecedented support and encouragement during the study, with an extraordinary initiative and willingness to help.

Above all, I am eternally and wholeheartedly indebted and grateful to my family. To my beloved mother, the guardian angel for her boundless love and sacrifices; to my beloved father for his strength and inspiring motivation; to my beloved lovely wife for her beautiful heart and altruism; and to my beloved sisters for their continuous kindness and belief in me. If it weren't for you all, I wouldn't have reached that far.

Finally and for the memory of my beloved father's soul:

"Your dream has come true, and you will be always in my heart and my prayers".
